

Atomic Polls

Use Atomic Polls to encourage students to engage with course content by asking them to respond to polls. Polls help students feel connected with other students class by comparing their responses with the responses of other students.

- Insert polls into Canvas pages
- Students see poll results immediately after responding
- Polls can contain multiple questions
- Poll questions can require students to write explanations in addition to voting
- Polls are highly configurable
- Teachers can view who responded

Question 1 of 2

How interested are you in History?

Super interested

Kind of interested

I don't care
