Students

Help your students find the answers to that question they asked that one time about that assignment. Remember? No.

Atomic Search gives your students the tools they need to find the answers they are looking for—without requiring a trip down memory lane.

Teachers

We know teachers work hard and the last thing you want to think about is how you are going to find the needle-in-the-haystack assignment you spent weeks creating last year.

Atomic Search indexes your materials, which means you can find that assignment in a snap.

Admins

Perhaps you need to update the content of your school's online policies. It isn't a hard task, but it requires diligence as you read and update all of the pages in your Canvas instance. With the full Atomic Search app, admins are able to search the full Canvas instance—not just in a single course.

Keeping it simple

Atomic Jolt develops powerful solutions that make teaching and learning more enjoyable and effective. Our simple solutions are so easy to use, you'll wonder how you've lived without them.

Atomic Jolt helps schools and EdTech companies bring their ideas to life by developing custom solutions for them.
